

# Tracking UTMs in BitForm

Integration is straightforward. When creating your form, ensure the name matches exactly with our naming convention as outlined in the [Native WP Shortcodes](#) guide.

That's all you need to do!

We have shown examples for `utm_campaign` and `utm_source`, but you can add all parameters as hidden fields to track them effectively.

Contact Form					
Builder Entries Settings					
#	Name	Email	UTM Campaign	UTM Source	Status
1	John Doe	example@example.com	your_campaign	your_source	Unread
