

# Pass UTMs to thank you page in Brave widget builder

If you are in V3, you should be able to pass any paramters using the shortcode.

Here we show it for utm\_campaign. This can be applied for any paramters listed here [Native WP Shortcodes](#).

✔ **Submission Success Action**

**Action Type** A Redirect to Another Page ▾

**Redirect to:** Required

**Redirect Message** Required

**Redirect After:**  6

**Encode Redirect URL**

**Redirect to Different URL based on submitted Form data**

Revision #2
