

Mailchimp For Wordpress Integration

HandL UTM Grabber / Tracker How to collect and track UTM variables via MailChimp step by step

- [MailChimp for WordPress Integration](#)

MailChimp for WordPress Integration

1-)Go to "fields and MERGE tags" from setting on Mailchimp

The screenshot shows the Mailchimp Audience dashboard for an audience named "HandL". The left sidebar contains navigation links: Audience, Audience dashboard, All contacts, Signup forms, Tags, Segments, Surveys, Preferences center, and Inbox. The main content area shows the audience has 2 contacts, 2 of which are subscribers. A navigation bar at the top includes links for Overview, Manage contacts, Add contacts, Signup forms, Preferences center, Settings, Inbox, and Surveys. The "Settings" dropdown menu is open, showing options: Audience name and defaults, GDPR fields and settings, Publicity settings, and Audience fields and *|MERGE|* tags. The last option is highlighted with a red box. A red arrow points from the "Settings" link in the navigation bar to this option. Below the settings menu is a table with columns: Email Address, First Name, Last Name, Address, and Phone Number. On the right side, there are buttons for "Export Audience" and "Email Marketing".

2-)Click on the "Add A Field" button

We have some resources available to help you in the right direction.

- Knowledge Base
- Frequently Asked Questions

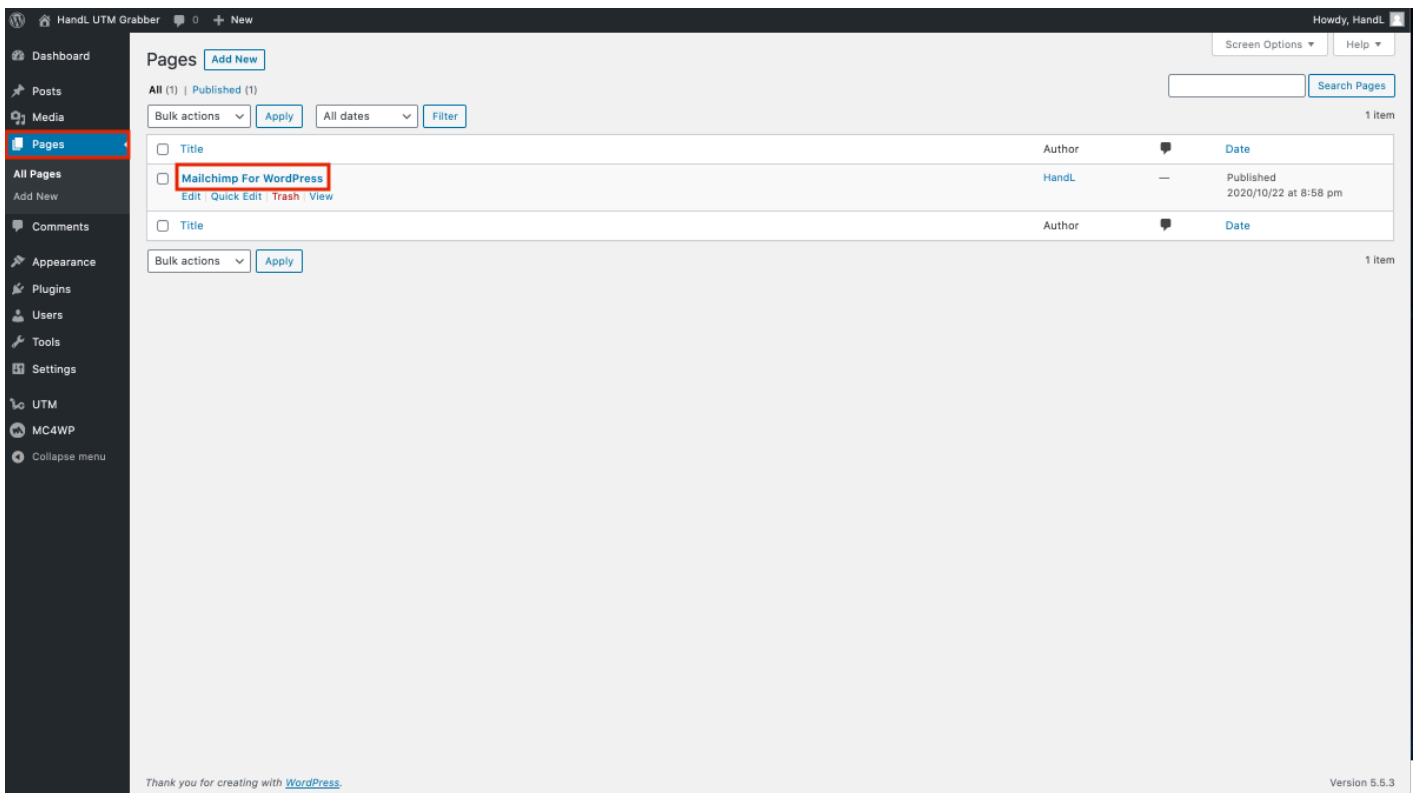

If your answer can not be found in the resources listed above, please use the [support forums on WordPress.org](#).

Found a bug? Please [open an issue on GitHub](#).

Parameters Code Example

```
<p>
  <input type="hidden" name="MMERGE6" value="" id="utm_campaign"> <input type="hidden"
name="MMERGE7" value="" id="utm_source"> <input type="hidden" name="MMERGE8" value=""
id="utm_medium">
  <input type="hidden" name="MMERGE9" value="" id="utm_content"> <input type="hidden"
name="MMERGE10" value="" id="utm_term"> <input type="hidden" name="MMERGE11" value=""
id="gclid">
  <input type="hidden" name="MMERGE12" value="" id="handl_landing_page"> <input
type="hidden" name="MMERGE13" value="" id="handl_ip">
</p>
```

7-)Go to your pages section and open your page

The screenshot shows the WordPress dashboard with the 'Pages' section selected in the left sidebar. The main content area displays a list of pages. The page titled 'Mailchimp For WordPress' is highlighted with a red box. Below the title, there are links for 'Edit', 'Quick Edit', 'Trash', and 'View'. The page is authored by 'HandL' and was published on '2020/10/22 at 8:58 pm'.

<input type="checkbox"/>	Title	Author	Date
<input type="checkbox"/>	Mailchimp For WordPress	HandL	Published 2020/10/22 at 8:58 pm

8-)Paste your form shortcode here

9-)Go to campaign URL builder and copy the URL that it generated

About this Site
Help & Feedback

Fill out the required fields (marked with *) in the form below, and once complete the full campaign URL will be generated for you. *Note: the generated URL is automatically updated as you make changes.*

* Website URL
The full website URL (e.g. <https://www.example.com>)

* Campaign Source
The referrer (e.g. [google](#), [newsletter](#))

* Campaign Medium
Marketing medium (e.g. [cpc](#), [banner](#), [email](#))

* Campaign Name
Product, promo code, or slogan (e.g. [spring_sale](#))

Campaign Term
Identify the paid keywords

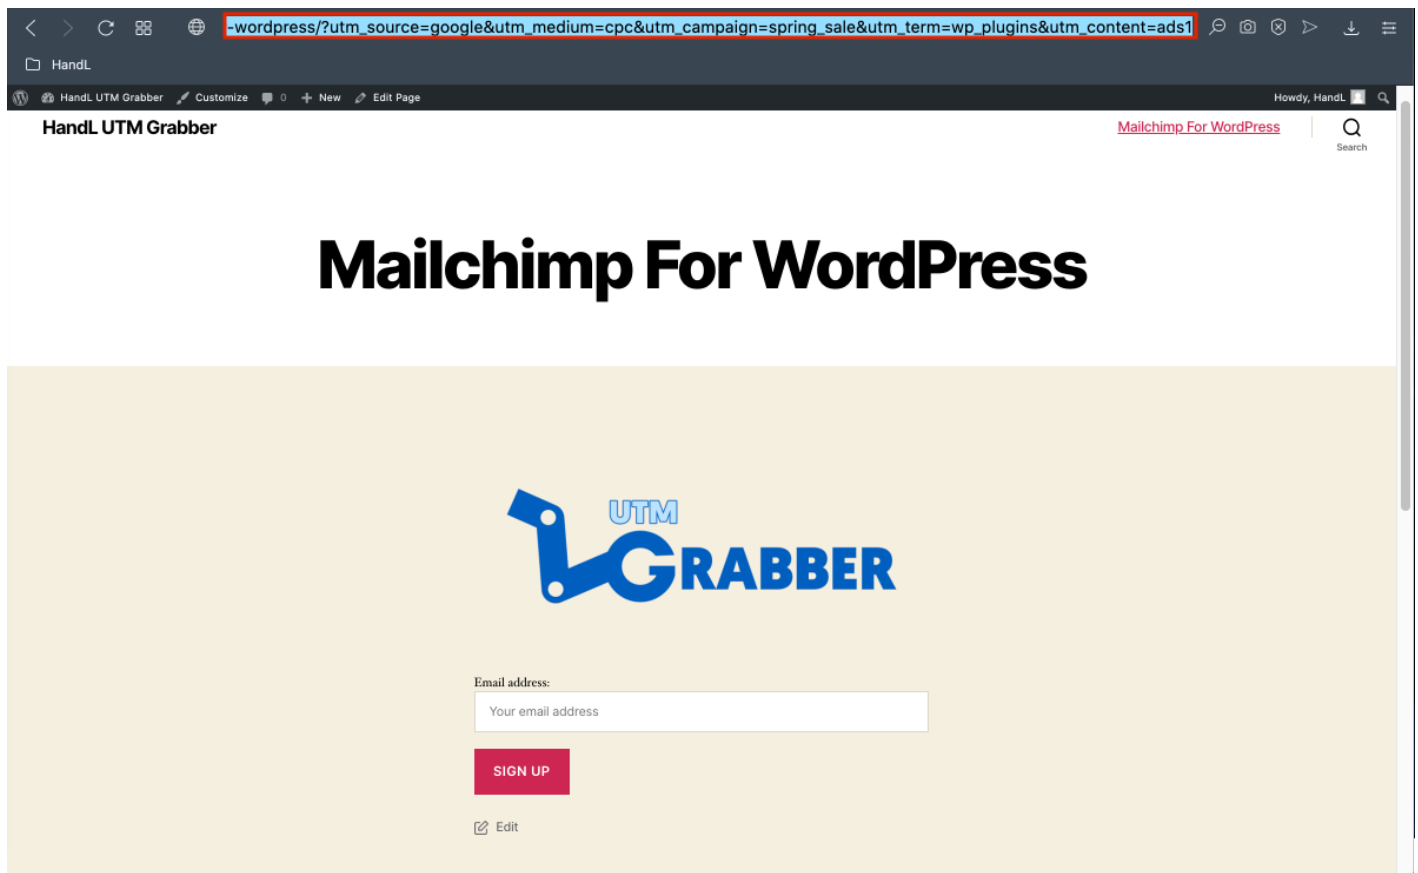

Campaign Content
Use to differentiate ads

Share the generated campaign URL

Use this URL in any promotional channels you want to be associated with this custom campaign

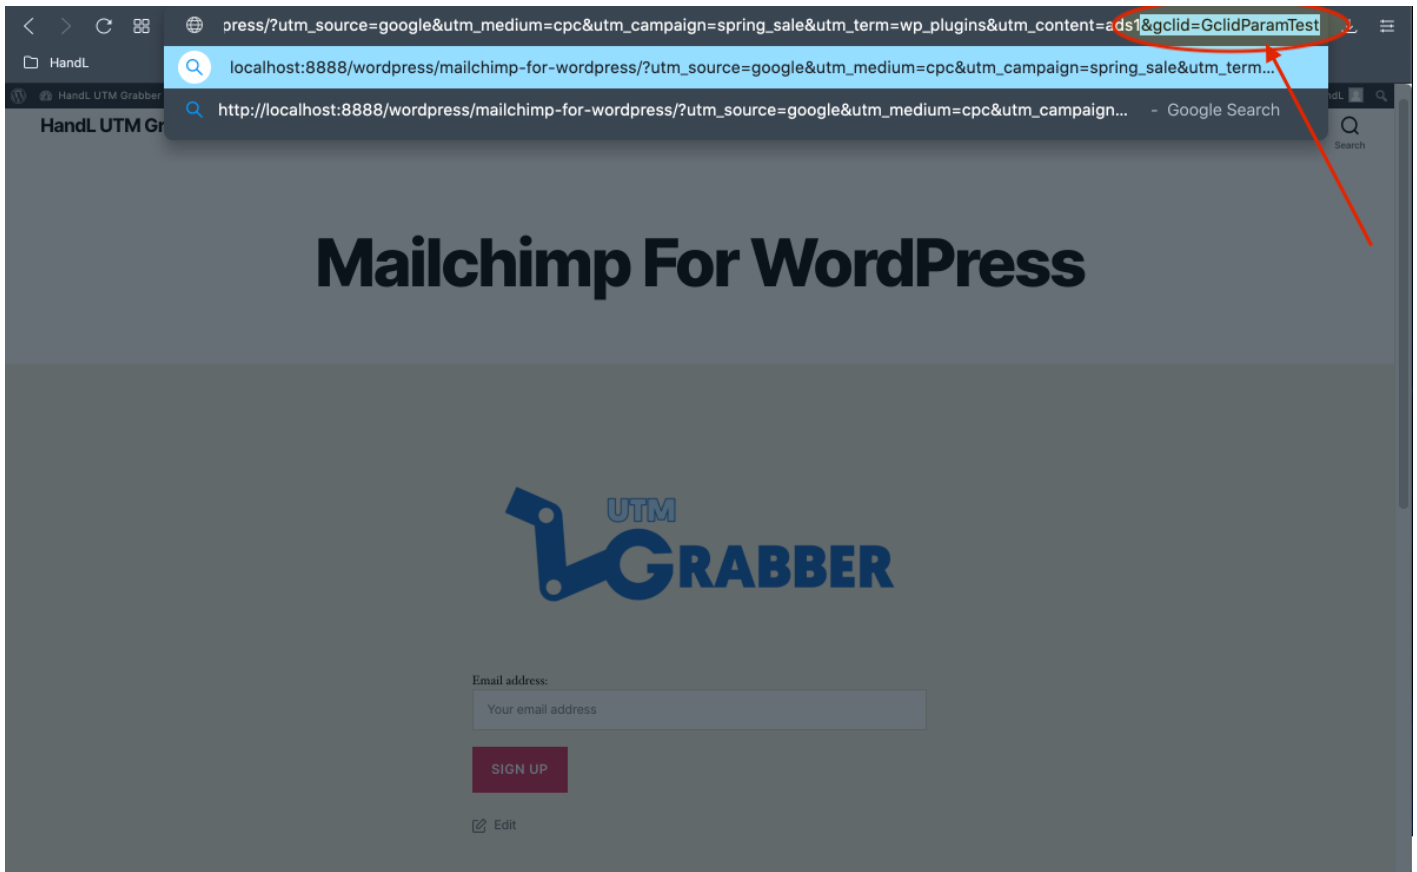

☐ Set the campaign parameters in the fragment portion of the URL (not recommended).

10-)Paste the URL that you copied

The screenshot shows a web browser window with the address bar containing the URL: `-wordpress/?utm_source=google&utm_medium=cpc&utm_campaign=spring_sale&utm_term=wp_plugins&utm_content=ads1`. The page title is "Mailchimp For WordPress". The main content area has a light beige background and features the "UTM GRABBER" logo, which consists of a blue stylized robot head and the text "UTM GRABBER". Below the logo is a sign-up form with the label "Email address:", a text input field containing the placeholder "Your email address", and a red "SIGN UP" button. At the bottom of the form is a small "Edit" link with a pencil icon.

11-)Write the gclid parameter at the end of the URL Then send the form
