UTM Grabber for Real Cookie Banner

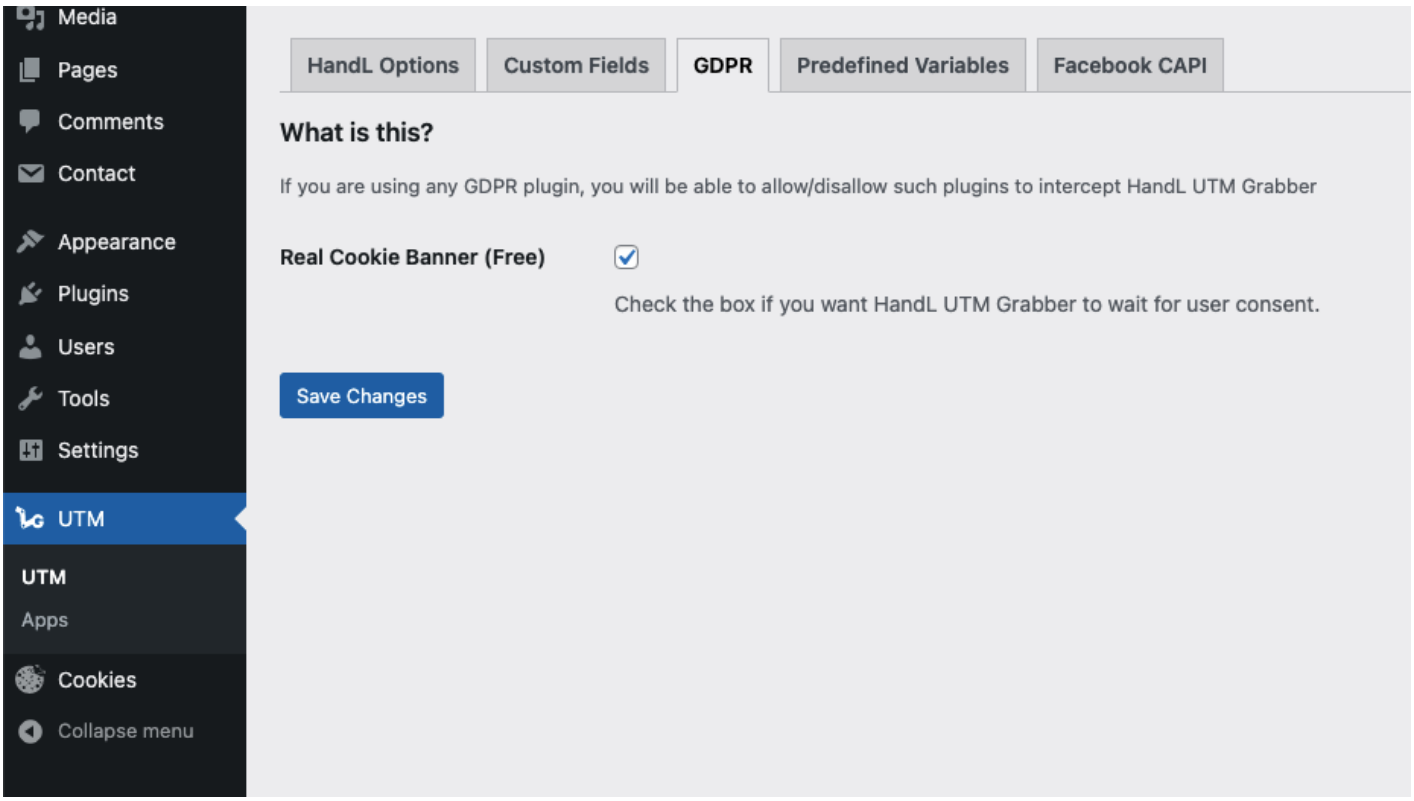

By default, UTM Grabber will collect the user data regardless of Real Cookie Banner consent decision.

If you want UTM Grabber to wait for the consent from Real Cookie Banner. Do the following:

Set UTM Grabber to recognize Real Cookie Banner

Go to UTM > GDPR

Check Real Cookie Banner (Free) box.

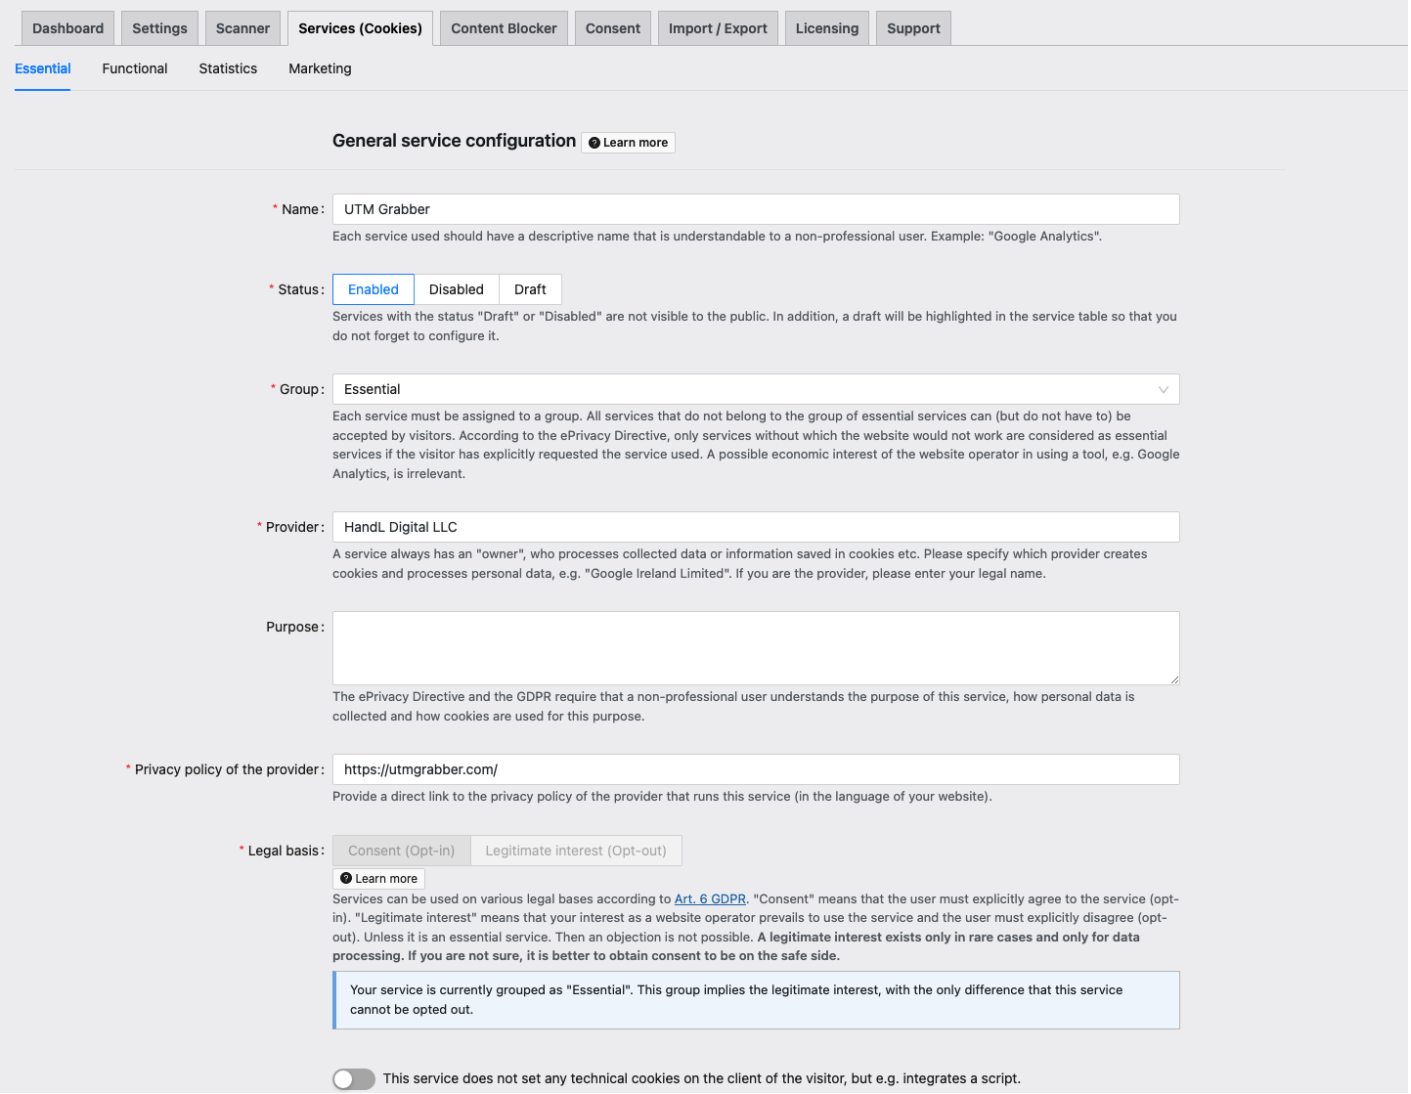

Create Consent for UTM Grabber in Real Cookie Banner

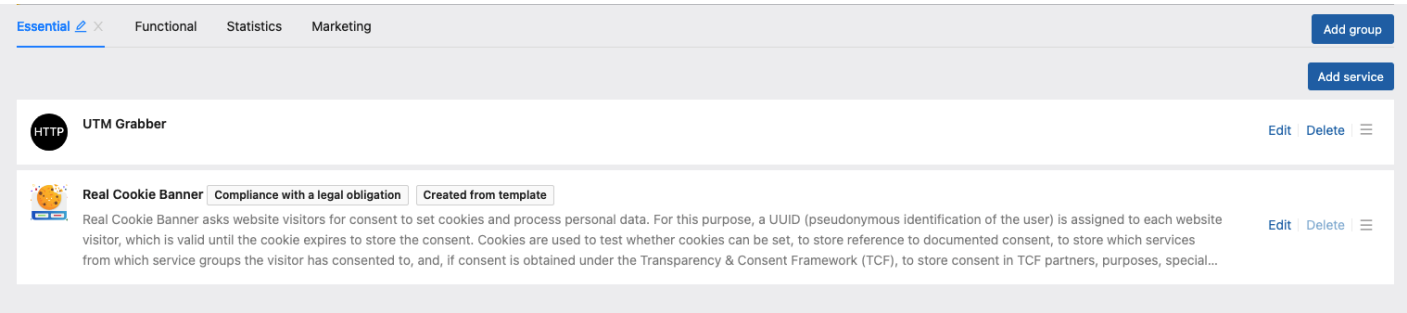

Go to Cookies > Services (Cookies)

Create UTM Grabber Cookies and assign it to any group.

Here we created for Essential group

Make sure the Cookie name is set as "UTM Grabber"

Voila! Your set up is done. UTM Grabber now will wait the consent before collecting data.
